FILE PREPARATION GUIDELINES

- We recommend building art in this template
- If building art in this template, the color space of this template should match the color space of your art (if art is RGB, make sure template is RGB, etc.)
- All art elements (raster/vector) should use the same color space
- Recommended color spaces are GRACoL 2013 (CMYK) and sRGB
- Design art to the BLEED size listed (which is also the size of this artboard)
- Resolution of raster art/images should be no less than 100 ppi AT FULL SIZE
- All text elements should be converted to outlines
- All raster images should be embedded
- Colors should be applied as process colors and not spot colors
- Turn off the TEMPLATE layer prior to saving your print file for upload

52.75"
